

If you are having difficulty finding Pastor Jake's Facebook Live messages, look for the "Search" magnifying glass on your Facebook home page (for mobile) or the Search bar on your Facebook home page (computer). Type in "Jake Porter" to search for Pastor Jake.

When you find Pastor Jake, click on his search result.

You will be sent to Pastor Jake's page, and, if he has started a Live presentation, you will see him with "Live" in the top corner. Click anywhere in that video of Pastor Jake, and you will be brought to the Facebook Live stream.

Make sure you have your speakers turned on and volume set in order to hear him. There may be a few times where the video is a bit choppy, or gets “stuck” for a few seconds. That depends on both Pastor Jake’s internet signal strength and your internet signal strength. Be patient, and the Live stream should play smoothly again in a shortly.

Generally, the Live stream works pretty well. However, there is a learning curve for all of us in this. If you are still having difficulty – you can contact me via Facebook, e-mail ([communications@immanuelcrc.com](mailto:communications@immanuelcrc.com)), phone or text (616-215-8425) – and I will try to help you connect as best that I can.

Thanks,

Eric Miedema
