Hola amigos,

Since I went to Rafa's house January 21, 2019 he was looking forward to building a house for a sister from his church. In my mind he needed the new house but he had a heavy heart for that family, I was hoping to work with him.

This year, a few months ago, he moved into the house that is where the new church is at and the feeding program in Zone 18. The building was donated to Tesosros de Gracia, Canalitos where pastor Rafa works under. Pastor Shorty has allowed Rafa to live there for the next 10 years rent free! The idea is that he will save that money to buy a house.

Part of the new challenge pastor Rafa has taken is a day to pick up the vegetables to be donated at la Limonada Zone 18, Zone 6, Zone 7. Also, it has been helping for the new feeding program in Zone 18.

We also have connected him to local businesses and ministries that have helped build this new feeding program.

Bible study during a weeknight at his house.

The feeding program is twice a week and the food looks amazing.

The bread comes from the rehab house in Zone 5, the ex-gang members are making the bread for the children. they buy it from them at a better price.

The church is growing and the children ministry and youth ministry from la Limonada is growing. Every day the young people come and serve twice a week as part of the service to your neighbor's project. From la Limonada the young people come and serve, clean the vegetables and serve the food to the children. This program is growing a lot faster than before.

Youth group from la Limonada is growing.

Young people serving at Zone 18.

God has been blessing Rafa with the money that you guys are sending as a church. He has been able to bless his family for all the help they give him with all of these great changes.

Rafa is very happy to be able to serve God and he loves you all and appreciate the love and support.

Let me know if you would like more info about this email I would be glad to send it as you guys might request.

Gracias.

Jose Armas
